

Welcome to ISCTD Learnout

ISCTD is set up to promote science and technology in developing countries and we take a comprehensive approach to achieve that goal. On one hand, we pursue investment projects that improve the education opportunities for the region through our *HEDProject*. Concurrently, we maximize the educational opportunities and options for our students through **ISCTD Learnout™**.

Why *ISCTD Learnout™*?

In line with ISCTD's vision, *Learnout™* tries to take advantage of the opportunities that exist around the world. We understand that the opportunities in developing countries might be one dimensional in nature and thus we try to expand the options for our students. By offering this service, we encourage the democratization of globalized education. We feel this improves the options for our students and gives them the opportunity to become exceptional assets.

ISCTD takes this approach since we believe pairing regional investments and the corresponding technical training in all forms leads to a more efficient utilization of our collective intellectual resource which improves regional development.

What Learnout™ does?

Learnout helps students maximize their potential through the following:

Choosing the right schools.

Learnout students profit from a team of experts, who are backed by an array of resources, research and systems that agencies don't have.

Academic and Personal Support for International studies

Learnout™ does not simply facilitate applications for students; *Learnout™* provides complete support for students starting from the application process until the completion of their education program and even beyond. We accomplish this via our network of personnel, offices, and partners and through the resources of our parent organization, ISCTD.

Education Optimization

ISCTD currently has key personnel, offices and/or partners in several countries around the world. In addition, the organization is *continuously growing and expects to increase her presence in more places with time. This will help us offer the most options and provide the most comprehensive support for our students*

The countries include: U.S. (Boston, New York, Washington D.C., Virginia, Washington)

Canada (Toronto, Vancouver, Montreal)

EU (UK, Ireland),

Asia (China, Taiwan, South Korea, India)

Ghana

Counseling and Support

Stop for a visit: Our counselors are located near many of our Preferred Placement Member Institutions (PPMI). If you have any questions or just need someone to talk to about your experience, you can simply ask for a meeting.

Email us: Alternatively, you can also email us at Learnout@isctd.org.

Referral: If our counselors are unable to assist you, we will make all effort to refer you to one of our capable partners.

Preferred Placement Institutions

Study Computer Engineering||Computer Sciences||Medicine||Pharmacy||Oil and Gas||Mechanical Engineering|| Electrical Engineering and many more courses at some of the best universities in North America||EU||Asia as a Preferred Placement Institution Candidate.

Benefits of being a Preferred Placement Institution Candidate

- Guaranteed admission into our Preferred Placement Member Institutions
